Changes to the RFP Documents for the Supply of Various Vaccines and a Diagnostic Agent RFP

The following changes have been made to the Supply of Various Vaccines and a Diagnostic Agent Request for Proposals (RFP). Please refer to the updated RFP documents throughout this procurement process. The updated documents are now available on the Pharmac website and GETS.

[RFP document - 2022 RFP document for Various and Influenza Vaccines.pdf](#)

Page 8, and Pages 11-12, Price

The mandatory requirement for a \$12.00 influenza vaccine list price has been removed, and clarification has been provided in relation to the influenza vaccine list price.

Page 11, Requirement for proposals for high dose or adjuvanted influenza vaccines added

If submitting a proposal for the high dose or adjuvanted influenza vaccine for people over 65 years, suppliers MUST also submit a proposal for inactivated quadrivalent influenza vaccine for people under 65 years (including paediatric patients). Further clarification regarding this requirement is included on page 11.

Page 12, point (e)

“Proposals that include more than one vaccine in each proposal” has been removed. Clarification regarding potential vaccine bundling options has now been included on page 12.

[Response Form - Schedule 4 Proposal Response form.docx](#)

Page 3, c) Information about our organisation:

“Information about our, or our supplier’s, existing supply commitments for the products in scope, including other markets supplied”: and

“Information about our, or our supplier’s, previous supply performance, and ability to ensure continuity of supply of the proposed product(s)” are duplicative of the questions h) and i) of the response form and have been removed.

Please note this change is also reflected on page 25 of the RFP document - 2022 RFP document for Various and Influenza Vaccines.pdf

[Proposal spreadsheet - Schedule 4 Question \(d\) Form.xlsx](#)

Addition of columns in order for pricing to be included alongside the vaccine details (as well as in the Schedule 4 Proposal Response form document).
