MAKE  
KNOWLEDGE YOUR  
SUPERPOWER WITH  
DEXCOM G6

# THE FUTURE OF CONTINUOUS GLUCOSE MONITORING (CGM) IS HERE

The Dexcom G6 provides real time glucose readings every five minutes for people with type 1 or type 2 diabetes. The Dexcom G6 lets you know where your glucose is at and which direction it is heading, continuously and conveniently from your compatible smart device.\*

## Zero Fingersticks

Factory calibrated to allow for zero fingersticks<sup>†</sup>

## Customizable Alerts & Alarms

Set your range and get notified when you're heading high or low

## Slim, Water Resistant Wearable<sup>‡</sup>

A slim water resistant sensor is discreet and easy to wear for up to 10 days

## Approved for 2+ Years

The only CGM FDA approved for ages two years and older

## Smart Device Compatibility

See glucose data on your compatible smart devices in real time\*

## Follow App

Share your glucose data with up to 5 followers<sup>§</sup>

The Dexcom G6 requires prescription.

\* For a list of compatible devices, visit [www.dexcom.com/compatibility](http://www.dexcom.com/compatibility).

† If your glucose alerts and readings from the G6 do not match symptoms or expectations, use a blood glucose meter to make diabetes treatment decisions.

‡ The Dexcom G6 Sensor and Transmitter are water resistant and may be submerged under eight feet of water for up to 24 hours without failure when properly installed.

§ Do not make treatment decisions based upon Share and Follow readings. Always confirm with your compatible smart device or receiver.

# INTRODUCING THE DEXCOM G6

## CONTINUOUS GLUCOSE MONITORING SYSTEM

The Dexcom G6 eliminates fingersticks for calibration and diabetes treatment decisions.<sup>†</sup>

# ACCURATE REAL-TIME GLUCOSE READINGS

The Dexcom G6 gives you the flexibility and convenience to monitor your glucose data when, where and how you want

## HOW DOES THE DEXCOM G6 WORK?

- 1 **Applicator**
  - Simple, auto-applicator to insert the sensor just beneath the skin
- 2 **Sensor**
  - Measures glucose levels for up to ten days
  - Acetaminophen blocking- Accurate glucose readings even when taking acetaminophen\*
- 3 **Transmitter**
  - Affixed to the top of sensor; sends data wirelessly to a display device

#### 4 **Display Device**

**Compatible Smart Device<sup>†</sup>** (Not included with G6 System)

- Whether at work, home, or school you can check your glucose values right on your smart device with the G6 app

\* G6 readings can be used to make diabetes treatment decisions when taking up to a maximum acetaminophen dose of 1,000mg every 6 hours. Taking a higher dose may affect the G6 readings

<sup>†</sup> For a list of compatible devices, please visit [dexcom.com/compatibility](http://dexcom.com/compatibility)

# A CLOSER LOOK AT THE DEXCOM G6 MOBILE APP

The Dexcom G6 app displays glucose information at a glance. Customizable alerts and alarms can notify you of pending highs and lows.

The Dexcom G6 app is compatible with both iOS and Android devices.\*

# THE POWER OF SHARING

With built-in Share, up to 5 people can follow your glucose levels, giving you the circle of support you need.\*

By downloading the Dexcom Follow App<sup>®</sup>, followers can view your glucose data directly from their smart device, whether they live down the street or across the country.

\* Do not make treatment decisions based upon Share and Follow readings. Always confirm with your compatible smart device or receiver.  
† Internet connectivity required to access Dexcom Follow.

# MANAGE YOUR DIABETES WITH **DEXCOM CLARITY**

Dexcom CLARITY is an important part of your Dexcom CGM system. Using your CGM data, CLARITY highlights glucose patterns, trends and statistics. You can share data with your clinic and monitor improvements between visits. Get to know CLARITY after you set up your Dexcom CGM.

## WHEN AT HOME

Log in at [clarity.dexcom.com](http://clarity.dexcom.com)

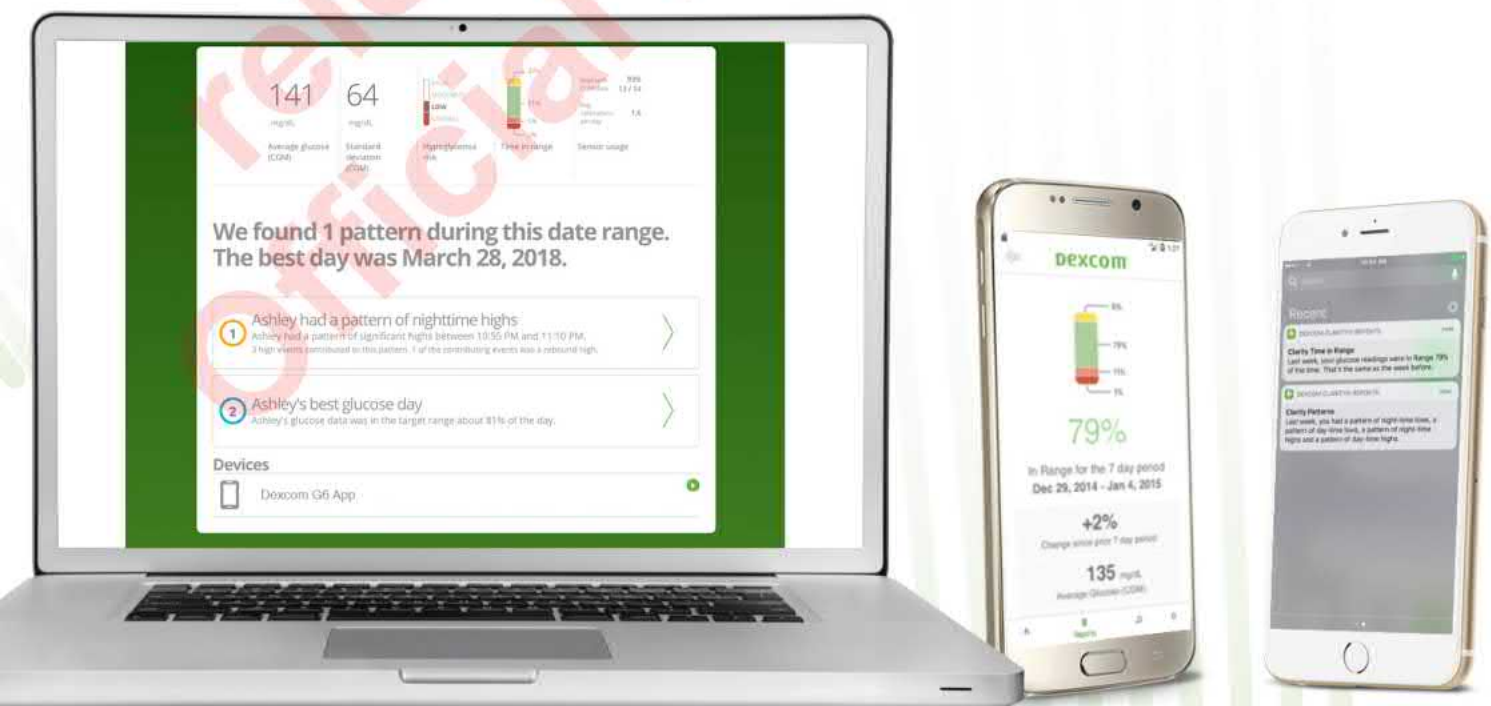

Use your current Dexcom login or, if needed, create an account.

## WHILE ON THE GO

Get weekly notifications with the Dexcom CLARITY app

Notifications available to Dexcom mobile users.

# Why NZMS Diabetes?

With NZMS Diabetes, you get more than a continuous glucose monitor, you join our family. In addition to our ground-breaking products, you get the benefit of:

24/7 customer care.  
Our 24/7 Customer Care Team is always available on 0508 634 103.

Local support.  
Assistance is available from an NZMS Diabetes representative in your area.

Expert training.  
Even though our products are simple to learn and simple to use, we offer personal pump training to every new customer.

Online resources.  
Resources for all our products are readily available online at [www.nzmsdiabetes.co.nz](http://www.nzmsdiabetes.co.nz)

Shopping online.  
At your convenience, you can shop online at [www.nzmsdiabetes.co.nz](http://www.nzmsdiabetes.co.nz).

Staying updated.  
We'll keep you up to date with NZMS Diabetes news, events, promotions and new product information through direct email and social media.

## Your Choice. Your Life. Your Freedom®

We're devoted to helping people living with diabetes. For over 20 years we've given thousands of people the tools and support they need to improve their quality of life.

For more information on our products, please contact NZMS Diabetes on **0800 500 226** or [nzms@nzms.co.nz](mailto:nzms@nzms.co.nz)

[nzmsdiabetes.co.nz](http://nzmsdiabetes.co.nz)

**Always read the label and use only as directed. Consult your healthcare professional to see which products are right for you.**

#### BRIEF SAFETY STATEMENT

Failure to use the Dexcom G6 Continuous Glucose Monitoring System (G6) and its components according to the instructions for use provided with your device and available at <https://www.dexcom.com/safety-information> and to properly consider all indications, contraindications, warnings, precautions, and cautions in those instructions for use may result in you missing a severe hypoglycemia (low blood glucose) or hyperglycemia (high blood glucose) occurrence and/or making a treatment decision that may result in injury. If your glucose alerts and readings from the G6 do not match symptoms or expectations or you're taking over the recommended maximum dosage amount of 1000mg of acetaminophen every 6 hours, use a blood glucose meter to make diabetes treatment decisions. Seek medical advice and attention when appropriate, including for any medical emergency. NZDI\_DEX\_004. April 2019
